office of Attorney J. C. McKinstry in which Mrs. Butters executed and signed her will on the 5th day of March, 1908, and Firebaugh testified that he witnessed the instrument together with Kate Murray, stenographer in the office, and Dr. Alexander Gageau.

Miss Murray was then called and testified to the facts stated by Firebaugh. Firebaugh, who was on the stand, identified the codicil of March 17, 1908, as being in the handwriting of Mrs. Butters. This codicil, in the face of subsequent events, disinherited Georgiana B. Cook Karmann, recently wedded to an army officer on duty in the Philippine Islands, and reads as follows:

CODICIL OF THE WILL.

"This is a codicil to my last will of March 5, 1908. This clause is contained on two pages of my said will, viz: 'To my daughter, Georgiana B. Cook, the sum of \$100 per month so long as she remains unmarried; and in the event of her death or remarriage then this sum shall be paid to her daughter, Lucie B. Cook.'

"With this provision changed so as to read 'to my daughter, George and B. Cook, the sum of \$150 per month so long as she remains the divorced wife of Dr. Channing Cook; but in the event of her remarriage while he lives, or in the event of her marrying a divorced man at

any time, this sum of \$150 shall not be paid, but my said shall cease, and the sum of only \$50 shall be paid to her daughter, Lucie B. Cook."

Attorney Joseph Haber of counsel for the proponents testified as to the absence from the county of Dr. Garreau, that he could not appear to prove the will, whereupon the instrument and its codicil were introduced in evidence by Attorney H. B. Miller.

OBJECTS TO DOCUMENTS.

Attorney Eugene R. Jettethan, for the contestants, objected to the admission of both documents in evidence on the ground that they had been properly authenticated and made of record, which was sufficient for the purposes of the contest. He held that neither the will nor the codicil were involved in the case, the only question being whether or not Mrs. Butters was mentally competent at the time she executed them.

Judge Wells overruled the objection and admitted both instruments, whereupon Attorney Miller read them to the jury and into the record.

This concluded the proponents' case and court was adjourned for the midday recess. When it resumed this afternoon Attorney M. C. Chapman, for the contestants, began the opening statement of his case to the jury. This was in the nature of a detailed history of the life of the deceased and consumed most of the afternoon.

Their future home is as yet undecided. Only the family of Mrs. Berger were in attendance at the wedding ceremony.

"Love Tales of Hoffmann" Pleases Idora Audiences

TITLE ROLE

Regina Vicarino Adds Much to
Opera With Her Handling

Production Well Staged Under
Supervision of Orchestra
Leader.

"The Love Tales of Hoffmann," the symbolic grand opera of Offenbach and one of the most melodious operas on the stage, was given its initial production by the Bevan company at Idora park yesterday afternoon with Eugenio Battain in the role of Hoffmann.

The production was the most magnificently staged of any of the Bevan offerings, while the chorus work vied with that of the principals for first honors. This production will go down in Oakland musical history as being the most efficiently handled of all the operas, and much of the credit for its success is due to Roberto Franchini, the orchestra director, who conducted the music in an almost inspired manner.

As Hoffmann, Battain was at his best. His work in the prologue and epilogue, the scenes taking place in a rathskeller, was particularly to be commended as he threw himself into the part of the German poet with all his soul.

In the treble role of Olympia, the doll; Julietta, the Venetian lady; and Antonia, the German girl, Regina Vicarino scored not only as a singer, but as an actress, handling these three totally different parts in a manner that proved her skill and which tested her ability to the utmost.

Her work as Julietta in the second act was probably her best, although she made a "cute" doll and handled the heavier solo work of Antonia in a most acceptable style.

Too much credit cannot be given Vicarino in these three parts for each was totally different, requiring a different style of both voice and action, and it is to the soprano's credit that she made such a favorable impression in all three roles.

Albert, the veteran baritone, also had three different roles to perform, that of Coppolus, the mountebank who sells Hoffmann the doll; in the first act; Dapertutto, the Conchita baron, in the second act; and Miracolo, the magician, in the last act.

Albert's comedy work as Coppolus was excellent, and although he sang in Italian, his delivery was so expressive that the audience could follow his part of the story with ease. His dramatic acting as Miracolo in the third act was a masterpiece and brought him much applause.

Soprano and Crispel were sung by Joseph Morian, whose magnificent bass proved more than equal to the occasion. The double role of Franz and Nathaniel was sung by Arthur Mesner, while Anne Tullis made good as Can Veece, while

SUPERVISORS FLIP COIN TO DETERMINE NOMINEE FOR MURRAY CONSTABLE

C. H. Acker of Livermore Declared
Republican Candidate When Half
Dollar Falls "Heads Up"

The supervisors, this morning, by lot decided that C. H. Acker of Livermore was the regular nominee of the Republican party for constable of Murray township, and that the election would be held on the 10th of the month, who has been constable of the township since the death of George S. Fitzgerald, however, declares that he proposes to contest the nomination.

A fifty-cent silver piece, the property of Supervisor Mullins, was "flipped" in the meeting place of the supervisors and the party which decided the election was not the candidate of the Republican party.

Acker is a Republican while Fitzgerald was a Democrat. At the late election in Murray township, Acker and Fitzgerald were candidates for the position in question, but Acker received 124 votes on the Republican ticket.

Under section 26 of the new primary law, it is provided that in the event of two candidates for the same office receiving the same number of votes, they shall be decided by a coin toss, the coin being tossed at the place where the election has taken place and in their presence.

Both Acker and Fitzgerald appeared before the supervisors this morning, and the members of the board were under the impression that it was the constable's duty to decide the election by the toss of a coin, but by pulling straws or by engaging in some other game of chance, but a decision was made by the supervisors that the coin should be tossed by the supervisors themselves.

Just as the contestants appeared on the stage within the hall, the board room, the invitation to the members of the board, Constable Fitzgerald stated that he intended to contest the election for the reason that there were about eight or nine ballots which had been cast in Altamont precinct which had not been counted by the judges, and that he intended to contest the election by the toss of a coin, but by pulling straws or by engaging in some other game of chance, but a decision was made by the supervisors that the coin should be tossed by the supervisors themselves.

At the suggestion of Supervisor Kelley, it was decided that if the coin should fall on the carpet with "heads up" Acker would be the winner, and if it fell on the floor, Fitzgerald would be the winner. It was then agreed, on motion of Supervisor Kelley, that when the coin dropped on the carpet, it was to be counted by the board, and that the result should be the result without the intervention of any of the members of the board.

Supervisor Mullins then tossed the silver in the air. An instant later the money was on the floor. Supervisor Bridges declared that the coin had fallen "heads up."

ERNA VON ENDE, in "Love
Tales of Hoffmann," at Idora
Park.

Erna von Ende as the Muse of Poetry sang her small part a capably. Her work as Hoffmann's mother, as Cochenille, Gernus as a child, Machuel as a girl, and as a girl, was well in the part, and helped to make the opera a success.

Peterson and Mesner, who were the version of Hoffmann in English at Idora park two weeks ago, it is interesting to compare the two versions of the German masterpiece. The Italian version is by far the best as the parts are all sung and not partially spoken as in the English version. The full beauty of Offenbach's music was not realized in the former version while the Italian gives every note and tone its full effect throughout the opera.

RESOLUTION PREPARED.

A resolution was then prepared by Deputy District Attorney Clark in accordance with the provisions of the law, and the same time declaring Acker the Republican nominee and ordering the clerk to issue the primary election for the 10th of the month.

While Fitzgerald, who Acker on the Republican ticket, he was also voted for on the Independent ticket, which he received the nomination, having received 163 votes to 16, which he was defeated for Acker.

Fitzgerald will contest the election and at the earliest possible moment file a complaint in the Superior Court, but will not ask for the examination of the votes of more than the precinct of Altamont, which was the only precinct at which the election was held.

The judges, because the cross after the name of a candidate, voted for him, and the result was that Acker was elected.

In the event of proving that the result was that Acker was elected, the result was that Acker was elected.

As well as that on the Democratic ticket, the result was that Acker was elected.

HORSE THIEF IS TAKEN TO PRISON

Weak Mentality Proves no Bar
Because Relatives Failed
to Take Charge of Him.

Despite Superior Judge Brown's declaration at the time he sentenced Henry Stashenko to serve one year in the penitentiary at San Quentin, for horse stealing, the latter was no place for the culprit because of his weak mentality, the degenerate was transferred to that institution by Deputy Sheriff Lasse, to serve his term.

His relatives in the East had failed to take charge of him, and he could not be released from custody as he could not refrain from committing crimes. Stashenko could not hold him at the county jail any longer, so the only alternative was his incarceration in the penitentiary.

The latter had spent all the ammunition for the vessels of the Pacific Asiatic stations.

Pardee Again Exposes Himself.

Whenever George C. Pardee gets a grouch he emits his bile through the columns of the Enquirer, hiding his malice and mendacity under the impersonal cloak of a newspaper affords.

The other day THE TRIBUNE ventured to offer some mild suggestions to the Freeholders who are framing a new charter for the city. Dr. Pardee is one of the Freeholders. As soon as he read what THE TRIBUNE had to say he rushed down to the Enquirer office and penned a characteristic diatribe against this paper and all others who have the hardihood to offer suggestions relative to the provisions of the charter. He said THE TRIBUNE was opposing the new charter in the interests of the corporations.

The statement is absurdly false. The new charter has not been framed yet, so far as the public knows, and THE TRIBUNE has not even hinted that it should be voted down. Perhaps Dr. Pardee knows what the corporations want and do not want, but THE TRIBUNE does not. The only desire it has is that the Freeholders shall present a good working organic law which will meet with general approval and will give the city an efficient government that will enable it to develop along progressive lines.

But Dr. Pardee's head is swelled and sore, and he cannot refrain from harking back to his political grievances. His resentment over the failure of the Enquirer to shake down the Contra Costa Water Company for \$55,000 appears to be unabated. He has cherished it till it has assumed the form of a personal wrong. Perhaps it was, in a sense.

Since he pleaded in vain with William F. Herrin for the support of the Southern Pacific when he was a candidate for re-election, Dr. Pardee has been afflicted with a species of rabies. When he held his memorable interview with Herrin in the San Francisco Ferry building, in 1906, Pardee was eager to become the railroad candidate. He begged the Southern Pacific's chief law officer to give him the corporation's support. His pleading was in vain. Ever since he humbled himself in vain Pardee has been in eruption against the Southern Pacific.

At the Santa Cruz convention he solicited Abe Ruef's support in person. In a long interview with Ruef he strove vainly to secure the votes of the Ruef-Schmitz delegation. His failure to get it embittered his soul, and since that time he has bawled Ruef at every person who offended him.

Dr. Pardee's constant reviling of the Southern Pacific and Abe Ruef merely serves to keep alive public remembrance of the personal overtures he made for their support when he was a candidate for re-election. He will not allow the people to forget the ignominious failure that met his pleadings. By persistently exhibiting his sores he advertises the deals he attempted to make, first with the chief counsel of the Southern Pacific, and second with Abe Ruef. What he sought to gain he alleges was infamous for others to accept. No one else ever characterized in bitterer or severer terms the bargains he tried to make. He stands convicted by his own judgment.

All this is beside the charter question, but by intemperate and malicious abuse, and by making irrelevant statements malignantly false, Dr. Pardee has made himself a personal issue. Under pretense of defending the new charter from an attack that was never made, or even contemplated, he has vented an ignoble personal spite and eased his vicious temper by downright lying. It is necessary therefore that his motives and character should be brought under review.

"A fine means nothing to the defendant in this case, but a jail sentence will make him respect the law," declared Judge Smith McPherson in the United States District Court at Kansas City the other day as he sentenced a prosperous offender to ninety days in jail. If some of the riotous rich who make a sport of violating the speed law were given a dose of Judge McPherson's medicine the streets and highways would be safer for pedestrians to traverse and there would be fewer shocking accidents for the newspapers to record. Rich offenders care nothing for fines, but a jail sentence breaks their hearts. They have money to throw at birds, but they have no time to spare in jail. When it comes to serving time they are on an equality with the poorest.

No Reform in Scandal-Making.

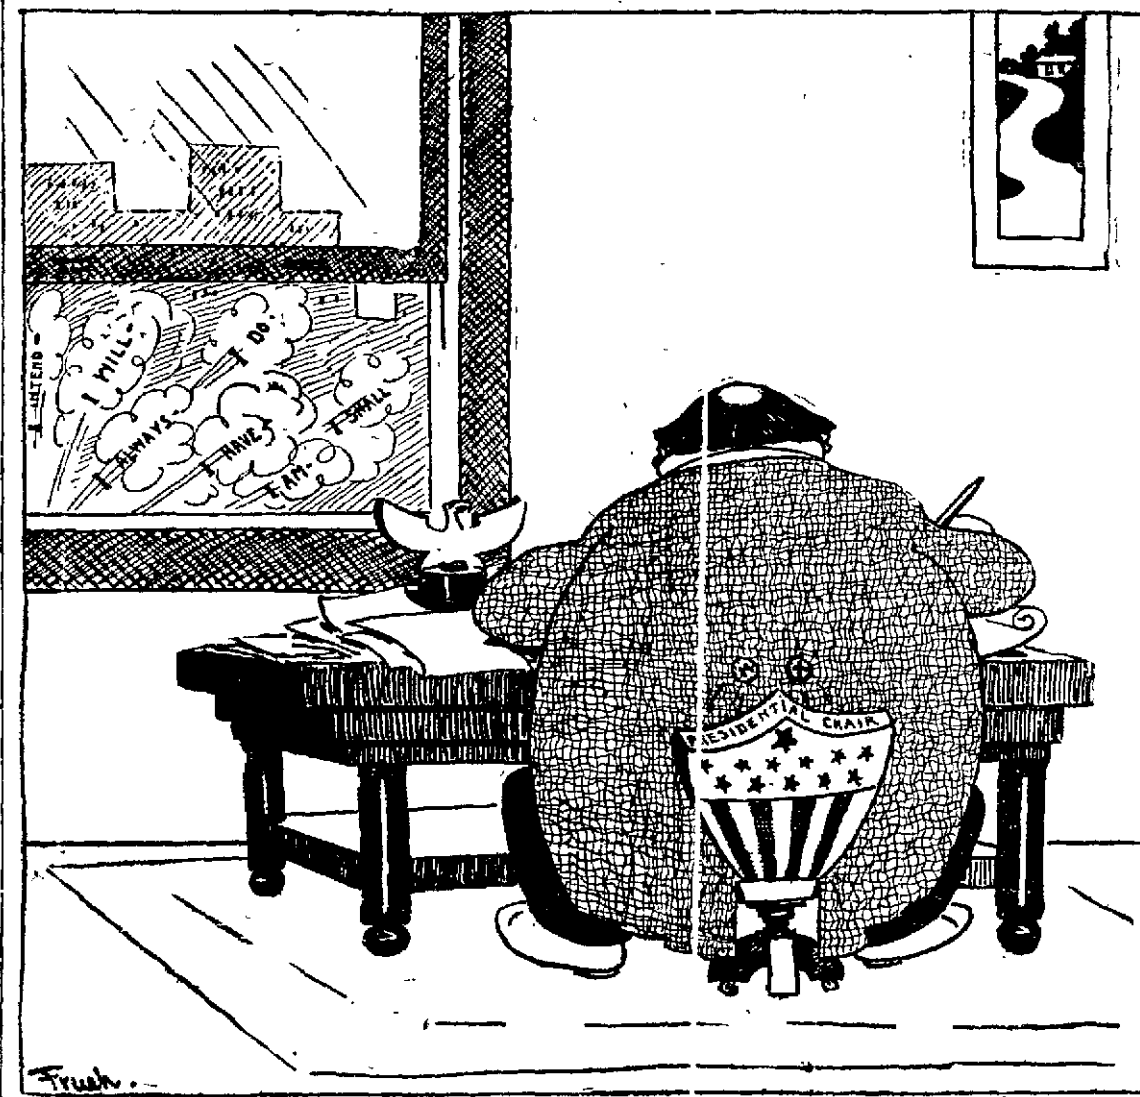

Public decency has never yet gained anything from the activities of noisy, vulgar agitators who seek notoriety for themselves rather than rational moral benefits for society at large. Sensationalism is cheap, often prurient and a species of flash hypocrisy, and is frequently resorted to as a catch-penny device by the morally and mentally bankrupt.

The methods of Adam Dixon Warner, who has recently invaded the town as a crusader against "the white slave traffic," are not such as to commend themselves to earnest, thoughtful people. Warner's history is not an inspiring one. Vehemence and reckless assertion have always served him, rather than study, industry and the habit of methodical, logical thinking along lines determined by ascertained fact. His appeal for attention is that of the showman, and the lowest order of showman at that. Mere violence of language is his chief claim to a hearing. He offers no remedy for the evils he professes to cure.

Warner signalized his entry into this community by attacking the oldest and most persistent vice that infects human society. He need not have left Los Angeles to do that. It is not necessary to come to Oakland from any other town to find the social evil. That cancer on the body politic is found in every community. It has baffled philosophers, sages, la givers, prophets, philanthropists and rulers since time immemorial. Efforts to eradicate it have never done more than change its legal status and alter the conditions under which it existed. The evil has always been with us. It will always be with us; the evil is left for men like Adam Dixon Warner to cure.

Warner went before the church federation, with sensational charges in regard to the ownership of houses which he said were occupied by lewd women. He was unable to substantiate the charges when challenged to do so. His statement as to the number of bawdy houses in a certain locality remains unsubstantiated and is probably wildly exaggerated. It is certain, however, that the social evil flourishes in the locality named. But the evil is not aggressive in Oakland, and has not more than kept pace with the growth of population. While no radical reform has been effected, the conditions have improved of late. Vice is less prominent than formerly. Still it cannot be truthfully said that this community is much further advanced in social purity than the other cities of California. But conditions are no worse here than elsewhere and much better than in some cities of the same class. They are less flagrant than in Los Angeles, where the women have been into the streets and ply their trade in hotel lobbies and in residence sections of the city.

sensation. He endeavored to get the backing of the pastors of the principal churches and of the church federation, his first step being an effort to get them committed to his sensational charges against public officials. Happily the ministers demanded proof before they endorsed charges gravely affecting the reputation and character of men of standing and position in the community. Confronted with this demand for proof, Warner's charges fizzled. He had made them without investigation, which is a suggestive commentary on his veracity and methods. Slander is not a good aid to reform.

But granting that all Warner said to be true, he offers no remedy for the evil he is attacking. He is simply picking and inflaming a sore. It is true that if there are men holding public positions of honor and profit who are knowingly landlords of lewd women, they should be exposed and held up to the odium they deserve. But this discipline does not affect the evil against which Warner is ostensibly directing his energies. Such crusades as the one he is preaching give blackmailers their opportunity to bleed the unfortunates who are being ground between the upper and nether millstones of society. Sometimes such crusades are whooped up to furnish this opportunity. The Warner type of reformer never reforms anything, but as a rule makes a bad matter worse.

It is reported that the Koreans are accepting the annexation of their country by Japan gracefully. The Japanese have a rather harsh way of dealing with those who accept Japanese measures ungraciously. The Koreans have been taught by experience that it is safer and more comfortable to accept gracefully anything the Japanese see fit to do.

In Columbus, Ohio, thirty-three policemen refused to obey an order to ride on street cars during a strike. They were dismissed from the force, but have appealed to the courts to keep them in their jobs. Policemen who refuse to obey orders are worthless as guardians of the peace.

Colonel Roosevelt's warning against following "men whose intentions are excellent, but whose eyes are too wild," was probably meant for Gifford Pinchot and James R. Garfield who are assisting the ex-President to fire the popular heart.

Mrs. Jack Cudahy will go on the stage. Having been the heroine of a sensational scandal and been divorced from her husband, she is now fully qualified for the role of a star actress. She also has a shapely figure. Thus the elevation of the drama proceeds along lines that are at once true and beautiful.

Can our just rage with vengeance be appeased

20 YEARS AGO IN OAKLAND

Local national guardsmen are beginning to recover from their pilgrimage to the Second Bridge encampment at Santa Cruz. The Fifth Infantry, which has been under the command of Colonel Fairbanks for but a short time, caused the eyes of the brigade officers to open with astonishment during the encampment. It is but a short time since the Fifth was dubbed the "Hayseeds" and nothing was expected of them. But, when the men showed by their splendid drilling and perfect marches in review that they were out for business, Colonel Fairbanks received the plaudits he so richly deserved.

ARE SOBER ENGINEERS

From Charles Frederick Carter's "The Brotherhood of Locomotive Engineers," in September Century.

It is safe to say that no other union, club or organization of any sort applies quite as much heroic treatment to undesirable citizens as the Brotherhood of Locomotive Engineers. One thing that the brotherhood most strenuously insists upon is that its members shall not drink. Thirty-five members were expelled for getting drunk in 1908, and their shame was publicly proclaimed in "the Journal." The treatment does not stop here by any means. The brotherhood will not risk the lives of its members and the general public by permitting a drinking man to run an engine. When a man has been duly convicted of drinking and punished according to the laws of the order, the facts are laid before the proper authorities on the road that employ him, and his discharge is demanded. In one notable instance the engineer of a fast train got drunk during the layover and disgraced himself. He was tried, convicted and expelled, the management was informed, and the offender's discharge requested in regular form. But as the engineer

had been a good man, the railroad company demurred, saying that he had not been drunk while on duty.

"But," said the brotherhood, "there is no telling when a man who gets drunk off duty may take a notion to get drunk on duty, and we do not intend to take any chances on having a drunken man tearing through the country at six miles an hour, endangering the lives of others. It is unfair both to the employer in your service and to your patrons." The culprit was discharged. He never be employed on a railroad again.

Give Me This Mountain.
By REV. W. PALMER.
Pastor Plymouth Congregational Church.

Joshua 14:12. "Now, therefore, give me this mountain."

The mountain in question was inhabited by giants dwelling in walled cities. Caleb, the man who asked for it, was 85 years old. He might have been excused if he had chosen some green valley, some vine-clad hillside. But he said, with rugged courage, "Give me this mountain where the giants live!"

Years afterward, when every green valley and pleasant hillside were submerged under the Assyrian invasion, "this mountain" remained a fortress and a sanctuary. The place where the giants lived had become the refuge and training school of the people.

The forces of righteousness must say concerning the great change made in our city: "Give us this mountain!" The city is not unlike Caleb's mountain of old—there are giants in it. The White Slave Traffic, the Saloon, Industrial Oppression, Poverty, Greed, Disease—these are the giants!

But, on the other hand, what possibilities for better things the city holds! Here men and women are close together, they can be reached with great ideals, linked together by great common purposes. The thrill of the possibility of a better civilization of brotherly men has already awakened choice spirits here and there.

To proclaim the supremacy of childhood, to awaken a new loyalty toward womanhood, to make woman beautiful and dignified, to wake up a new sense of disease and vice, to fill the mind with the music of great ideals, to lift the infinite value of the human soul, to make men sensitive to God working in His world, to lift before humanity the vision of the Christ—in a word, to save concerning this great thing, modern city: "Give me this mountain, where the giants live!"—submit, should be the master passion of the Christian church and of every good man.

BIG SAENGERFEST OPENS TODAY WITH 1000 VOICES

First Concert of Great Singing Event Takes Place in San Francisco This Evening; Directors Entertained;

SAN FRANCISCO, Sept. 1.—The thirty musical directors of the saengerfest were given a reception this morning by Arthur Claassen, who, with Paul Steindorff and J. R. Riegger, will conduct the choruses, and this evening the grand opening concert of the great singing festival will begin the day of music that will attract attention all over the country.

The last rehearsals were held yesterday afternoon at the Auditorium. The complement of a thousand singers from all over the United States has arrived. A reception was held last night at the saengerfest headquarters and the visiting singers were welcomed to San Francisco. The affair broke up early, however, because of the strenuous days of work ahead.

PREPARE FOR CONTEST.

Much of the time of the contesting societies will be spent in preparation for the great prize contests. The prize poems, which have been set to prize music, will be sung Saturday afternoon by the Arion, a local singing society under the leadership of F. Zech. There were two prizes offered by the saengerfest committee, one for the best original poem and the other for the best music to the words. George Meyer of Milwaukee and Konrad Nies of San Francisco took in the poem prize and A. Buchse of Philadelphia and Thomas Voigt of San Francisco took the music prize.

A telegram, wishing success to the saengerfest, from Theodore Roosevelt, was read before the societies last night.

BRIGHTEST BOYS IN EAST OAKLAND

OAKLAND'S BIG DAY.

Sunday, September 4, will be the gala day of the big singing festival of the Pacific Saengerbund, which takes place September 1, 2 and 3 in San Francisco. A great deal of enthusiasm has been manifested by the singing societies of Oakland and other bay cities toward a ringing an "Oakland day." The committee in charge is doing all in its power to make this celebration an unequalled success, and judging from the generous assistance of the merchants, it will outstrip any former similar festival.

It is estimated that over 10,000 persons will be in attendance on September 4. The principal attraction will be the prize singing for the Emperor's trophy, which has been donated by Emperor Franz Joseph of Austria. More than twenty-five singing societies will compete for this beautiful prize, which is valued at \$500. The park will be open all day to the public.

On Monday evening the German students at the University of California are to present its four Huns Sachs comedies and at the conclusion the saengerfest prizes will be awarded.

The business convention of the saengerfest will be held on Monday. At that meeting the delegates will decide on future plans of the Pacific Saengerbund, and among the things to be brought up for consideration is the holding of a national saengerfest here in connection with the San Francisco exposition of 1915. All the Pacific coast societies will learn this national saengerfest project of 1915, for there is no division of sentiment about it.

WM. R. DAVIS WILL NOT BE CHAIRMAN CONVENTION

County Lincoln-Roosevelt League Leader Failed to Elect Him a Delegate to State Meeting

The Republican State Convention will be held in San Francisco next Tuesday. It will consist of 428 delegates, of whom 43 will be from this county. It is expected that there will be a large number of Republicans in attendance, because of the great interest which was manifested in the recent campaign and primary election, which brought out one of the heaviest votes ever cast in the state.

NEW COMMITTEE MEETING.

The new Republican County Committee, which was chosen by the party convention in San Francisco last Monday night will meet in the Pacific building this evening for the purpose of organizing.

UNCERTAINTY EXISTS.

There is still some uncertainty among the Lincoln-Roosevelt Leaguers on the other side of the bay as to who will be chairman of the organization. The names of C. H. Bentley and Thomas H. Williams have been mentioned in connection with the position, but as neither is a member of the committee there is no possibility of either being selected. The choice must, therefore, devolve upon some other person. Among the others prominently mentioned for the place are Charles S. Wheeler, the attorney; Fred G. Sanborn, C. L. McEnery and Ralph L. Hathorn.

RATIFICATION MEETING.

Next Saturday night there will be a Democratic ratification meeting held in the Central theater, San Francisco, at which it is expected there will be a large attendance of people, some of whom will be drawn thither by curiosity. Theodore A. Bell, the Democratic nominee for governor, and Timothy Spellacy of Los Angeles, who is Bell's running mate for the position of lieutenant governor, will be the principal speakers, although there will be a number of lesser lights in the party also in attendance.

WIFE HELPED HIM.

Grove L. Johnson, who ran for the nomination as a member of the assembly in the 17th district in Sacramento, in filing an account of the cost of his campaign with the county recorder in that place yesterday made the following explanation:

"My wife expended some of her money. I do not know how much, but it was all expended for legitimate purposes. I do not know all the items."

Johnson's own costs came to \$230.60, consisting chiefly of advertising and printing.

ORIGINATOR OF LEAGUE.

Mr. Davis was one of the originators of the league and went to the front for that organization when there was little chance of success. At the state convention two years ago Davis was the chief candidate for chairman and there was a willingness on the part of all the Alameda county Lincoln-Roosevelt League leaders to allow him to make the run. With these facts in mind many of the leaguers throughout the state urged as a matter of sentimental justice that Davis should be put to the front now that the success of the league's candidate is assured.

Alameda county, however, will probably have a candidate for the chairmanship, the name of Senator John W. Stetson of this city being prominently mentioned. Stetson is declared to be the personal choice of Dr. George C. Pardee. In this connection it is some-

THE KINDERGARTEN WORK.

The kindergarten is under the direction of Miss Hazel Fitcher. A sewing class for girls meets every Thursday afternoon under the supervision of Miss Pearl Dewing.

Miss Alice Ramsey, the resident in charge of the settlement is assisted in her work by Miss Alta Lowe of San Francisco, Miss T. Masten and others.

The board of directors are: Mrs. J. F. Ames, Mrs. C. C. Lombard, Mrs. W. J. Wilcox, Mrs. A. C. Henry, Miss K. E. Cole, Mrs. E. H. Vance, Mrs. Geo. B. Gray, Mrs. Eliza Wolfenden, Dr. Elta C. Wakefield, Miss Mayone Morse, Miss Mary Maxwell.

Monday evenings a class in physical culture is conducted by Miss Y. Johnson of the Bushrod playground.

The Boys' Brigade of the East Oakland Social Settlement (extension work) of the local Young Women's Christian Association will make their second public appearance in uniform Friday evening, September 2, at 8 o'clock, at the Settlement hall, 1644 Franklin street, in an entertainment for the benefit of work in the settlement. The boys will give a short drill on the stage before the raising of the curtain for "Cinderella," to be given by members of the boys' and girls' clubs.

Wednesday evening is another red letter occasion. Between 50 and 60 boys and girls will gather for the old dances.

Wonderful influence is noted in the proper social development of these boys and girls. Visitors have exclaimed upon the marked improvement in the bearing and conduct of those taking part in the dancing and social work.

Friday evening a social club for young people is held from 8 to 10 p. m.

MONKEY BEFRIENDS SMALLEST WOMAN

Curious Attachment Between Midget and Chimpanzee With Big Circus.

A more curious friendship can hardly be imagined than the one which is now interesting the 1250 members of Barnum & Bailey's big circus family, and a considerable portion of the public which is attracted twice a day to the exhibition of the Greatest Show on Earth. The circus and the two friends will be seen in Oakland the coming Sunday and Monday. In the side show of the principal objects of interest is a young girl, who, on the running billboard and on signs in front of the big top, is described as "Princess Wrenie Wee, the smallest living woman, age 19 years, height 17 inches, weight 7½ pounds."

EDUCATED BABY MONK.

Just outside the sideshow tent and to the right is the entrance to the big top by means of the monkey road. If you enter Barnum & Bailey's zoological exhibition you will stop at the third cage to the left you will see Chimimie, a baby chimpanzee who has surprised his owners and trainers by exhibiting traits of human intelligence, grace and alertness. Chimimie is a wild animal, but he is a very intelligent one. He has been seen to open a door, to turn a key, to use a tool, to use a stick, to use a string, to use a rope, to use a net, to use a basket, to use a box, to use a chair, to use a table, to use a Old Mother Carries Hod To Win Freedom for Son; Hobble Skirt Crusade On

**At 56 Woman Helps
Build House to Get
Youth Out of Prison**

KANSAS CITY, Mo., Sept. 1.—Hod carrying was not too hard work for Mrs. Margaret La Trasso, a 56-year-old woman of Kansas City, Kan., when she was trying to earn money to aid in getting her son paroled from the Missouri penitentiary, and today she got her reward. The boy was paroled by Governor Had-

field. Troubles never came singly for the aged and bent mother. The floods of '91 almost ruined her little home. Then her husband became ill, and he has been almost a helpless invalid ever since.

Sent to Prison

Scarcely had he taken to his bed when the boy was sentenced to ten years in prison for a robbery committed near St. Joseph. The home was mortgaged to get money to defend him, but his was a lost cause.

While, as she called her son, went to prison, and the mother home to work and earn money to get him out. By much persuasion she got a job carrying a load. Then she prevailed upon her employer to make her a loan, which she invested in a restaurant, and added to the profits from this venture she managed to get her son's case before the Governor.

**Pastor Would Spank
Woman Who Parades
In Sartorial Travesty**

NEWARK, N. J., Sept. 1.—A crusade against the hobble skirt has been started by the Rev. Peter Henry, pastor of the First Reformed Church of Groverville, N. J. Among other things, he has issued an edict that no woman wearing such a dress shall be admitted to his church. He declares that "any woman who would so debase herself and set as to wear such a sartorial travesty should be spanked."

Henry characterizes the women wearing hobble skirts as the "walking balloons," "funatics" and "Goless ones."

Wins Her Degree

NEW YORK, Sept. 1.—The degree of Doctor of Laws has been conferred on Miss Helen M. Gould by the American College for Girls at Constantinople. This institution, which is under the control of the American Board of Commissioners for Foreign Missions, has for years been befriended by Miss Gould. Dr. Mary Mills Patrick, the president, came to this country about two years ago and was a guest at the home of Miss Gould. The college is about to move from its quarters in Scutari to a new and more spacious home on the European side of the Bosphorus.

Death at Phone

PUEBLO, Colo., Sept. 1.—While making a long-distance call to her home yesterday, Myrtle McNeil, telephone operator at Ordway, first learned of the death of her father, William McNeil, a wealthy ranchman, here last night. FIVE CHINESE GAMBLERS TO BE PUT ON JURY GRILL

**Former Judge Carroll Cook Files Affidavit,
Alleging Attempts to Collect Tribute
From Chinese Game Owners**

SAN FRANCISCO, Sept. 1.—Following personal visits of several of the grand jurors in Chinatown yesterday afternoon it was announced that five owners of gambling clubs in Chinatown would appear before the grand jury to go through an inquisition on the part of the jurors. There was a sensational development yesterday when former Judge Carroll Cook, attorney for the Chinese Six Companies, filed in the police court an affidavit alleging that attempts had been made among the Chinese to collect tribute from the gamblers, giving a promise of protection and police immunity. The services of a Chinese interpreter has been obtained by Secretary Frank Jewell of the jury who visited the fed-

eral authorities yesterday. Wong Sam, a Chinese of the quarter, who conducts a store at 143-145 Waverly place, and Mar Tan, who is one of the leaders of the better element of the section and familiar with affairs, will be called upon to testify. Whether or not Chief of Police Martin would be called as a witness has not yet been decided. The affidavit filed by Cook recites that Cook called upon the mayor and was told that, if anyone of the police department called upon the Chinese for tribute it would be done without authority and would be a violation of the law. It says Cook told the Chinese, Cook then alleges that Laye did commit a trespass at 811 Grant street.

**GUARANTEES THAW

**Mother of Wild Youth Promises
Future Daughter-in-Law
Willie Will Be Good.**

PITTSBURG, Sept. 1.—The announced engagement of William Thaw III to Miss Gladys V. Bradley of Bridgeport, Conn., yesterday developed the story here that Mrs. William Thaw II, his mother, has "guaranteed" her son to the future Mrs. William Thaw III. In other words, the Pittsburgh social leader and sister-in-law of Harry Thaw, who has passed her word that her son, who has been one of the wildest of the Thaw connections, will be good after his marriage. Only a year or two ago Mrs. William Thaw, after one of her son's unusually spectacular performances, went into court house and asked that her son be declared an habitual drunkard and that his property be turned over to some one disinterested by the court.

PERSUADES MOTHER.
With much difficulty he persuaded his mother not to press the case. He made his mother some promises at that time which he was not to keep. He promised to promise not to drink at all, but to be moderate and not spectacular. Once young Thaw forgot his promise to his mother, who was who he was in the last year, drank 70 brandy and scotch at the Allegheny country club on a wager and for days lay at the point of death in a hospital. When Thaw recently asked Miss Bradley to marry him she withheld her answer until his mother had guaranteed her son's good behavior.

**California May Get
Government Contract**

TACOMA, Wash., Sept. 1.—Bids were opened yesterday by the United States quartermaster for 10,000 tons of oats and 10,000 tons of hay for use in the Philippines during the coming winter. The lowest of grain and hay dealers is now centered in these bids. Whether or not the Northwest firms will be able to submit low bids in the face of the prevailing high prices in the Northwest is considered problematical. Grain handlers here would not be surprised to see hay from California supplied as there is a large surplus reported to be there this year.

**Flames Threaten Old
Cliff Line Car Barn**

SAN FRANCISCO, Sept. 1.—A passer-by at 630 this morning saw flames issuing from the abandoned car barn at Third and California streets, which formerly housed the steam coaches on the Cliff line. An alarm was turned in and the department responded extinguished the flames with non-damage. Several employees of the company sleep in the upper rooms of the building, and it is believed that a match or a cigarette left on a lounge started the fire.

SAN DIEGO, Sept. 1.—Adolph Schonek, accused of arson, and suspected of setting many fires in this city, was taken to San Antonio, Grand Jurors here, as a result of a change of venue granted by Judge W. R. Guy, of the Superior Court here, before the first trial of Schonek was conducted. The second trial will be before Judge W. R. Guy. A petition for a change of venue for the defense was introduced by the district attorney. Popular prejudice against the defendant was the principal reason given for the change of venue.

OVERTAXED

**Hundreds of Oakland Readers
Know What It Means.**

The kidneys are overtaxed; Have too much to do. They tell about it in many aches and pains. Backache, headache, neuralgia. Early symptoms of kidney trouble. Urinary troubles, diabetes, Bright's disease follow.

An Oakland citizen tells here the way to keep the kidneys well. Mrs. Albertus Kennedy, East Piedmont, and of Lake Shore Ave., Oakland, Cal., says: "I was troubled a great deal by backache, especially when I overworked. It was an effort for me to stoop or sit on account of the dull ache across my loins, and I was always tired and languid. My appetite was poor and my health became all run down. Seeing Doan's Kidney Pills highly recommended, I procured a box and their use benefited me greatly. My back was strengthened and that tired, worn-out feeling disappeared, together with the other symptoms of kidney complaint. I am grateful to Doan's Kidney Pills for what they have done for me."

Confirmed Proof.
On January 17, 1910, Mrs. Kennedy said: "While I have never used Doan's Kidney Pills since I publicly recommended them, I have by no means changed my high opinion of them. I know that this remedy can be relied upon and I therefore advise its use in cases of kidney complaint." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

It was discovered Tuesday that Weinberg's license to sell beer in quantities not less than six bottles had expired. The trustees refused to renew it. Weinberg was given ten days in which to dispose of his stock of liquors. Until that time the amber fluid can be obtained after the ten days Burlingame will be without a single wet goods emporium, except soda water dispensaries.

Gallantry Dying Out Women to Blame

"Twentieth century life is destroying the old-time reverence for womanhood. Women are perhaps largely to blame for this. They are meeting men in daily competition and the men see them at too close range. They have come out of their former personal seclusion, which formerly helped keep unsullied this reverence for womanhood."
